

**Both events are being held at the Embassy Suites Orlando – Lake Buena Vista South (Kissimmee) on Wednesday November 14, the same hotel as the FLC Legislative Conference which opens the next day.**

**Center for Municipal Research & Innovation Symposium  
8:00 a.m. to 1 p.m.**

*Reassessing Recycling: Balancing Market Challenges and Citizen Expectations*

In 2008, the Florida Legislature established a statewide recycling goal of 75% by 2020. Since 2016, multiple challenges have jeopardized that objective. Sessions will examine the impact of contamination rates and the price of trash in the global economy as well as how city ordinances regulating single-use plastics affect the local business community and help or hurt meet recycling goals. Learn about specific actions cities can take to reassess operations and policies to adapt and maintain viable municipal materials management systems.

This intensive half day is geared toward public administration professionals and elected officials and is a great opportunity to learn side by side and problem solve with them. Registration includes lunch with keynote.

**League of Mayors Community Service Project 1:30 – 3:30**

This is still in planning, but the League of Mayors is planning a community service project for this time.

**Attendance is free for government, \$500 per person for company attendees to attend any or all the events.**
