

Mindfulness: One pillar of leadership excellence

March 22 – Location to be determined, will be in Dade or Broward County

9:00 am – 1:00 pm (includes lunch)

Mindfulness isn't a common practice in local government, yet the lack of it is emphasized by the issues caused by the current hurry up, do it faster and cheaper model even at the cost of civility in the workplace. Mindful leadership emphasizes so many things that matter for good leadership such as “see the big picture”, “think systematically”, “pause and consider the longer term consequences” and “don't overreact”. Do we always pay all that much attention? A recent Harvard study revealed that mindful leaders are more effective, get better results and are more respected by their employees. When leaders actively engage in mindfulness practices, the "psychological capital" of an organization rises.

Don't miss this opportunity to engage in training side-by-side with Florida's managers.

All FCCMA members will be invited, but most likely participants will come from District 5 which includes county and city members within Broward and Miami-Dade counties.
